

TOWING RECOMMENDATIONS - 5x8 UTILITY TRAILER

TRAILER SPECIFICATIONS

GVWR: 2000 lbs

Empty Weight: 400 lbs

Max Load: 1600 lbs

Coupler: 2 inch Ball

Connector: 4-Way Flat

BEFORE TOWING

- Check tire pressure and lights.
- Ensure hitch ball matches coupler size.
- Cross safety chains under tongue.
- Verify load is centered and secure.
- Keep 10 to 15 percent of total weight on tongue.

ON THE ROAD

- Drive at moderate speeds.
- Avoid sudden turns or stops.
- Allow extra distance for braking.
- Stop and recheck load during travel.

AFTER USE

- Park on level ground and chock wheels.
- Disconnect plug and safety chains.
- Clean out trailer before return.
